

# Dharish David, PhD

Associate Director (Research and Analytics) — Global Angle • Faculty — Political Economy, SUSS & SIM-GE  
Market & Industry Research | Policy Analysis | Consulting | Academia

## PERFORMANCE SUMMARY

Research and Consulting Project Manager and Associate Director with 15+ years across **private market and investment industry research, policy and think tank research**, and **academia and political economy teaching** across Asia Pacific. Leads multi-country consulting and research projects covering 16 industry verticals for governments, MNCs, and SMEs across India, ASEAN, China, and Middle East markets. Previously managed a 25-person analyst team producing 100+ industry reports annually on the SPEEDA platform for institutional investors. Policy research background includes ADBI flagship publications on sustainable development and infrastructure finance, UN Global Compact's sustainable finance strategy in Singapore, and technology policy reports on digital economy and data flows across APAC. Served as Associate Faculty at SUSS and SIM-GE for 8 years teaching political economy, research methodology, and democracy courses. PhD in Infrastructure Development and Financing (Waseda University). Regular contributor to SCMP, East Asia Forum, and Global Policy.

## PROFESSIONAL EXPERIENCE

**Associate Director  
(Research and Analytics)  
/ Research and Project  
Manager, Global Angle  
Pte Ltd.**  
2022 - Current

- Lead 50+ research and consulting projects across manufacturing, infrastructure, fintech, technology, energy, healthcare, and F&B — delivering market sizing (TAM-SAM-SOM), competitive intelligence, regulatory analysis, and go-to-market strategy for governments, MNCs, and SMEs across ASEAN, India, and global markets.
- Design and execute mixed-methods research combining primary surveys (RAS/IPF sampling, expert interviews, focus groups) with secondary data triangulation; co-authored flagship report on Aging Society in ASEAN identifying silver economy opportunities across HealthTech, smart homes, and senior consumer goods.
- Spearheaded AI integration across research workflows — deploying agentic AI tools, Google Colab, and data visualisation platforms to streamline OSINT collection, NLP-assisted document analysis, and automated report generation.
- Cultivated government and industry stakeholder relationships leading to repeat contracts and expanded project scope across Southeast Asia and the Middle East.

**Manager — Capacity and  
Capability Building,  
Global Compact Network  
Singapore**  
2021

- Developed UN Global Compact's inaugural strategy for sustainable finance and social sustainability in Singapore, aligning with global ESG frameworks and SDG targets.
- Implemented strategy through multi-stakeholder engagement — managing project milestones, budgets, and resources across research projects, tools, workshops, and capacity-building events for corporate and government partners.
- Co-developed Sustainable Finance short course with NTU (reaching 100+ professionals) and led two flagship research publications on responsible supply chains and green finance across ASEAN.

**Peer Reviewer  
(Freelance)**  
2022 - Present

- Peer reviewer for Global Policy, Journal of the Asia Pacific Economy, Economic Analysis and Policy, Digital Policy Regulation and Governance, and other journals across

## MARKET & INDUSTRY RESEARCH

- Multi-sector research (based on SIC)
- Competitive & business intelligence
- Consulting & advisory
- Market sizing & modelling
- TAM-SAM-SOM analysis
- RAS/IPF sampling
- OSINT & risk analysis
- Quant & qual research
- Survey design & interviews
- Industry research for investment decisions
- Feasibility & due diligence
- Report production & QC

## MANAGEMENT & LEADERSHIP

- Lead 25-member analyst team
- Project & programme management
- Resource management & budgeting
- Milestone & timeline management
- Stakeholder management
- Risk assessment & mitigation
- Scope & change management
- KPI & performance management
- Process improvement & SOPs
- Business development
- Cross-cultural leadership
- Training & capacity building

## TECHNICAL

- R (data analysis & viz)
- Python & Jupyter

economics, sustainability, public policy, and regulatory governance.

**Associate Faculty, SUSS and SIM-Global Education, Singapore**  
2013 - 2021

- Designed curriculum, delivered lectures, and assessed students for Bachelor's and Master's programs in Research Methodology, Political Economy of Global Business, Asian Political Economy, and Democracy and Democratization – emphasizing evidence-based policy analysis and critical thinking.
- Coached and advised students for Harvard National Model United Nations (HNMUN) in Boston, fostering civic engagement and global governance perspective.

**Research Consultant, Economic Research Institute for ASEAN and East Asia (ERIA) and Chapter Writer, ADBI**  
2017 - 2021

- Designed and deployed multi-country survey across ASEAN markets on private sector challenges in financing the low-carbon energy transition – generating primary data on climate finance barriers.
- Authored policy-oriented report on low-carbon financing trends in Asia and contributed to Realizing Smart Cities in Asia project, combining sustainability, infrastructure, and technology analysis.
- Contributed chapter to Handbook on Green Finance, synthesizing research on climate-aligned investment frameworks.

**Research Lead and Global Partnerships Outreach, DQ Institute, Singapore**  
2019

- Secured grants from government and corporate partners by developing project proposals and impact reports, directly funding public outreach initiatives and digital product development.
- Co-authored white papers at the intersection of economics, public policy, and technology, translating research into actionable insights for diverse stakeholders.
- Developed Digital Intelligence (DQ) metrics and led coordination for IEEE global standards on digital literacy, skills, and readiness; contributed to workforce mobile product prototype.

**Policy Research Analyst & Business Outreach Project Coordinator, TRPC, Singapore**  
2016 - 2017

- Drove stakeholder outreach and conference programming for the Asia Cloud Computing Association (ACCA) across data analytics, digital transformation, cloud computing, financial services, smart cities, and IoT – engaging policymakers and industry leaders across APAC.
- Authored technology policy reports on digital economy, fintech, regtech, and cross-border data flows across APAC, ASEAN, and South Asia – contributing to evidence-based regulatory discussions.

**Research Manager/ Director Singapore Office, Uzabase Asia Pacific, Singapore**  
2014 - 2016

- Directed production of 100+ industry and economic insight reports on the SPEEDA platform covering 16 industry verticals (SIC and HS code) across India, ASEAN, and Asia – delivering in-depth industry analysis for institutional investors and global investment firms.
- Led a team of 25 analysts across Singapore and Tokyo, improved workflow and reporting processes, and conducted regular training in economics, regulations, and industry analysis to enhance team capability and report quality.

**Research Associate, Asian Development Bank Institute, Tokyo, Japan**  
2010 - 2012

- Contributed to ADBI flagship publications on sustainable development, energy policy, poverty reduction, and infrastructure development across Asia (ASEAN, India, and China) – producing evidence-based policy research for Asia's development agenda.

## INTERESTS

- Managed full publication lifecycle: concept note development, commissioning and quality assurance of background papers, data collection and quantitative analysis, conference production, and case study preparation.
- Liaised with government policymakers, researchers, and civil society stakeholders to organize ADBI conferences, regional policy forums, roundtables, and capacity-building workshops across Asia.

**Business Development  
Researcher, PADECO,  
Tokyo, Japan  
2008 - 2010**

- Supported feasibility studies and technical reports for infrastructure, education, environment, and poverty reduction projects worldwide — maintaining project data across ICT, transport, urban development, and tourism sectors.
- Contributed to project proposals, RFPs, and field studies through research and data analysis for international development projects funded by the World Bank, ADB, JBIC, and JICA.

**Teaching Associate,  
Waseda University,  
Tokyo, Japan  
2006 - 2009**

- Co-designed curriculum, taught research methodology, and evaluated students for courses at Waseda University's Graduate School of Asia Pacific Studies.

**Market and Business  
Research Analyst,  
Evalueserve/Vertex,  
Gurgaon, India  
2003 - 2006**

- Conducted market surveys with C-level technology leaders and provided research for outsourced business operations across North America, Europe, and East Asia.

## ACADEMIC QUALIFICATIONS

**PhD in International Studies** — Waseda University, Tokyo, Japan (2011). Specialization in Economic Development & Infrastructure Development.

**MPhil in Japanese Area Studies** — Jawaharlal Nehru University (JNU), India (2003).

**MA in Politics and International Relations** — Pondicherry Central University, India (2001).

**BSc in Biotechnology** — American College, India (1999).
